Level 2 Industrial Laser Safety Officer/Supervisor Course

This is a 2-day non-mathematical course covering the general principles and practice of laser safety as detailed in Australian Standards AS/NZS IEC 60825.1 and AS/NZS IEC 60825.14 for a role of level 2 laser safety officer or level 2 laser safety supervisor in an Industrial workplace.

Successfully completed; indicates the participant attended the course (or an equivalent course) and achieved the pass mark of 85% in an online test.

Attended; certificates are not issued in line with the requirement for competency in AS/NZS IEC 60825.14.

Laser Safety Course (LSC) Level to Defence Laser Safety Policy mapping:

This course is tailored for industrial applications and does not directly map to an ADF qualification.
